Monday, October 31st

Class Halloween Party! 1:25-2:10

Halloween party supplies due (10/28)

### WE'RE LEARNING!

#### Math

We are moving along to subtraction. Everyone did amazing with all the new addition strategies we learned and I can't wait to share our subtraction strategies!

#### Reading

While we won't be writing Poetry until the Spring, this week we will be looking at Elements of Poetry in poems and stories.

#### Writing

This week we will be writing Life Cycle Research projects and recounts of what we learned at the Fish Hatchery.

#### Science

(See writing!)

#### Religion

We continue on in our Religion workbook, learning about different ways to pray.

#### Community

This past week we discussed Safe/Unsafe Touches, Safe/Unsafe Adults. There were a lot of questions about what to do if they are home alone and need help. We talked through many scenarios and discussed that they should talk to their parents about a code word, an emergency phone, and listed phone numbers somewhere.

### REMINDERS

Halloween is on the horizon! We encourage costumes that are appropriate, easy to wear. Please no masks or weapons.

### TABLE TALK

This section is for a conversation piece you can talk about at the dinner table. Is there a phone and emergency numbers somewhere in the house that I can access if I need to call someone? Can I recite my address? Can I recite the phone number of one trusted adult?
