Thursday, March 23rd

3rd Grade Field Trip to Pacific Science Center!

Friday, March 24th & 31st

\$1 Non-Uniform Day to benefit Tent City 4

WE'RE LEARNING!

Math

We're spending a few extra days practicing fractions through FUN digital activities and games.

Reading

We are continuing to read The Mouse and the Motorcycle.

Writing

Last week we spent some time discussing what Poetry is and how it looks different from more familiar writing like a narrative. Students had the opportunity to look through various Poetry books on a poetry scavenger hunt!

Science

While our lessons contain elements of how animals behave to help them survive, the star of the show are our growing plant and wiggling caterpillars! We have had so much fun observing how fast our seeds grew and how big our caterpillars have gotten. It's won't be long before we have mature plants and butterflies!

Religion

We spend our Religion time writing in our Lenten Reflection journal, praying the Stations of the Cross, and traveling to different countries learning how CRS supports their livelihood.

Community

We are focusing on becoming independent learners. In order to do so, we try to read the board, check the schedule, see what our neighbors are doing, and ask ourselves "have I done this before?" before asking the teacher a question we can answer ourselves!

REMINDERS

This is a great time to start cleaning out your closets! We are having a clothing donation drive on Good Friday, April 7th. All clothing will be donated to St. Vincent de Paul.

TABLE TALK

This section is for a conversation piece you can talk about at the dinner table.

How are you doing collecting coins for 30 Pieces of Silver and for your CRS Rice Bowl?
