Wednesday, March 8th

3rd Grade helps at Mass!

Friday, March 17th

St. Patrick's Day - Free Dress!

Thursday, March 23rd

3rd Grade Field Trip to Pacific Science Center!

WE'RE LEARNING!

Math

We learned how to identify and write fractions last week. Now we learn how to order, compare, and figure out equivalent fractions.

Reading

Our first novel of the year starts today! We will be reading The Mouse & the Motorcycle together.

Writing

We are writing a fun narrative this week before we move on to Poetry!

Science

Our Life Science focus is on Animal/Plant Behaviors. This week we will learn about why animals live in groups and what a "trait" is.

Religion

Our focus from now until Easter will be LENT! What is Lent? What do we do during Lent? How is Mass celebrated differently during Mass? We will be praying the Stations of the Cross. We will also be traveling to Honduras, Philippines, and Kenya to see how Catholic Relief Services (CRS) uses our Rice Bowl money to help countries in need!

Community

We are focusing on becoming independent learners. In order to do so, we try to read the board, check the schedule, see what our neighbors are doing, and ask ourselves "have I done this before?" before asking the teacher a question we can answer ourselves!

REMINDERS

George will be reading and Kennedy & Eleanor will be helping with the gifts at our March 8th Mass. Zane is reading the prayer intention. Our whole class will be in the choir! Join us at 9am!

TABLE TALK

This section is for a conversation piece you can talk about at the dinner table.

Share with your family how Catholic Relief Services (CRS) helps others. (Our CRS lessons are on Mondays)
